AMITABH CHONDRO ROY

Architect | Urban Planning & Environmental Design Researcher

arc.mit07@gmail.com · linkedin.com/in/aramitabh · www.amitabhroy.bd

Research Profile

Architect and researcher working at the intersection of climate-responsive design, environmental analysis, and human-centred spatial research. My academic interests examine how daylight, natural ventilation, open space, and biophilic environments influence wellbeing and spatial experience, extending these questions from the building scale to healthy cities, climate-adaptive planning, biophilic urbanism, and sustainable urban development in South Asian contexts.

Education

Bachelor of Architecture (B.Arch) · CGPA 3.39/4.00 · Hajee Mohammad Danesh Science and Technology University (HSTU)

2014–2021 · Bangladesh

Undergraduate thesis: Designing a Human-Centred Work Environment for the Employees of Rangpur Hi-Tech Park

- Conducted wellbeing surveys with approximately 30 workers to examine how daylight, natural ventilation, and open space affected comfort, concentration, and daily experience.
- Analysed environmental conditions and survey findings to develop a biophilic, climate-responsive proposal for a 200-employee technology park.
- Developed architectural models and presentation drawings using AutoCAD and SketchUp; presented findings to an academic jury of more than 100 participants.

Higher Secondary Certificate (HSC) · Grade 5/5 · Cantonment Public School and College · 2011–2013

Secondary School Certificate (SSC) · Grade 5/5 · Thakurgaon Govt. Boys' High School · 2006–2010

Research Experience

Undergraduate Research Thesis · HSTU Architecture Department

July 2020–May 2021

- Conducted user wellbeing surveys and spatial interviews using a feedback-driven design methodology.
- Analysed relationships between physical environmental conditions and human comfort.
- Translated empirical findings into biophilic and climate-responsive workspace strategies.
- Developed detailed spatial models and architectural representations using AutoCAD and SketchUp.

Professional Experience

Architect (Part-Time) · Abode Engineers

March 2022–Present · Bangladesh

- Produced architectural drawings, site analyses, and 3D visualisations for residential projects.
- Developed climate-responsive solutions, including natural ventilation strategies and courtyard configurations for hot-humid conditions.
- Coordinated with structural and MEP consultants and translated client requirements into architectural proposals.

Freelance Architect & Brand Designer · Fiverr

May 2021–May 2024 · Remote

- Delivered architectural visualisation, rendering, and presentation services to clients across 15+ countries.
- Managed projects from client briefing and design development through visualisation and final delivery.
- Developed brand identity packages, including logos, brand strategies, and design guidelines for startups.

Architectural Intern · Sthapotik

September–October 2019 · Bangladesh

• Produced AutoCAD drawings and 3D visualisations and contributed to site documentation and design development for urban residential projects.

Technical & Research Skills

GIS & Design: ArcGIS Pro · AutoCAD · ArchiCAD · SketchUp · Lumion · Adobe Photoshop · Adobe Illustrator · Microsoft Excel

Research: Spatial analysis · Environmental analysis · User-centred survey methods · Evidence-based design · Problem solving

Planning & Design: Urban and regional planning · Urban design · Climate-responsive design · Biophilic urbanism · Landscape design · Architectural conservation

Professional: Project management · Architectural visualisation · Brand identity design

Languages: Bengali (Native) · English (B2) · German (A2 reading/listening; A1 speaking)

Honours & Academic Distinctions

• Diploma of High Achievement in Urbanism, Open Doors Master's Track Programme, 2026.

Admitted to MSc Urban and Regional Planning, Politecnico di Torino, 2026/27; unable to enroll after visa refusal.

• Secondary School Certificate Scholarship, Government of Bangladesh, 2011 — ranked in the top 0.5% nationally.

• Primary Scholarship, Ministry of Education, Bangladesh, 2005.

Courses & Certifications

• Sustainable Construction Management (CMAN-4) — University of Maryland via edX, 2026.

• Wellness and Sustainability in Architectural Design — LinkedIn Learning, 2025.

• Climate Change: A Top ESG Concern — LinkedIn Learning, 2025.

• ArcGIS Pro Essential Training — LinkedIn Learning, 2023.

• Future Cities (FC-01x) — ETH Zurich via edX, 2020.

• Google IT Support — Coursera, 2020.

Leadership & Academic Engagement

Co-Founder & General Secretary · HSTU Photographic Society · March 2019–March 2021

University Exhibition Coordinator · HSTU Architecture Department · January–March 2019

Architectural Exhibition Convenor · HSTU Architecture Department · February 2017–April 2018

Study Tour Coordinator · HSTU Architecture Department · March–April 2018

• Built a 30-member team, organised workshops and exhibitions for more than 200 participants, and managed sponsorships, logistics, and communications.

• Led department exhibitions attracting more than 400 visitors and coordinated a 15-day heritage study tour for 30 students and staff across Bangladesh.

Community Engagement & Selected Academic Events

• Judge, HSTU Photography Competition — evaluated entries and provided written feedback, 2019–2022.

• Flood Relief Volunteer, Biral, Dinajpur — coordinated delivery of food and medical aid, 2017.

• Community Outreach Coordinator, Winter Relief Programme, 2009–2010.

• Selected events: Talk by Marina Tabassum (2019); Deltaic Architecture Degree Show (2018); Seminar on Mud Architecture by Abdun Nime (2017).
